Quartz Tiles

**STERN**HAGEN  
GERMANY

## Where art meets engineering

Committed to create and enrich the daily suite experience, Sternhagen thrives to connect visionary design to flawless technological production expertise, every day. Beyond its award-winning premium sanitary ware, Sternhagen now unveils the world's first multi-purpose 3D quartz tiles.

## Sani-Q

Quartz made in Germany

Sternhagen's patented high-tech Quartz based material was developed initially for timeless artistic sculptures. With a built-in hygienic armour present at both the surface level and at its core, **Sani-Q** has unique attributes making it the material **par excellence** for applications needing outstanding resistance, easy maintenance and longevity. The cutting-edge elegance material, developed by Sternhagen.

# MATERIAL PROPERTIES

- ▶ Abrasion resistance
- ▶ Scratch resistance
- ▶ Chemical resistance
- ▶ Stain resistance
- ▶ Heat resistance
- ▶ Antibacterial
- ▶ Dimensional accuracy
- ▶ Resistance against spalling
- ▶ Reparability
- ▶ High-precision moulding

## PENT TILE

The inspiration for the Pent surface came from an ancient pattern from Rajasthan, India.

Reborn as a multi-purpose quartz tile and assembled as an astonishing 3D surface, the Pent wall amazes by its duality of triangles and hexagons shaped from smooth, colorful surfaces.

## APPLICATION POSSIBILITIES

Thanks to Sani-Q's outstanding material properties and the universal Pent design, Sternhagen proposes several application possibilities from residential homes to hospitality sector purposes alike. The following areas show only some of the endless alternatives.

- ▶ Hotels
- ▶ Restaurants & Bars
- ▶ Residences
- ▶ Corporates
- ▶ and more...

- 173 × 200 × 15 mm

Material

- Sani-Q

Surface

- Metallic Glossy

## KRISTALL TILE

Introducing the worlds first multi-purpose 3D quartz tile, Sternhagen unveils the Kristall tile, completing the award-winning Sani-Q basins that marked the next generation of sanitary ware. Refracting light from its many facets, Kristall tile looks crisp as a freshly cut stone. Just as in nature no two crystals take exactly the same shape, no two facets of this tile are alike. Individuality is a natural perfection.

## APPLICATION POSSIBILITIES

Thanks to Sani-Qs outstanding material properties and the universal Kristall design, Sternhagen proposes several application possibilities from residential homes to hospitality sector purposes alike. The following areas show only some of the endless alternatives.

- ▶ Hotels
- ▶ Restaurants & Bars
- ▶ Residences
- ▶ Corporates
